

Athena Partner has received Ondansetron ODT approval in UK

Jan 2018:

Athena DDS, a technology driven company specialized in Oral Solid Dosage forms, further strengthens its roots in UK market obtaining Marketing Approval for Ondansetron 4 & 8 mg ODT.

Alexandre Williams, Managing director of Athena DDS 'looks forward for a prosperous future with second approval in UK for Ondansetron 4 & 8 mg ODT. With every such achievement Athena is focused, demonstrating our company's ability to work successfully in the developed markets; thereby extending our footprint and embracing new opportunities.'

Ondansetron is used alone or with other medications to prevent nausea and vomiting caused by cancer drug treatment (chemotherapy) and radiation therapy. It is also used to prevent and treat nausea and vomiting after surgery.
